

Improving mobility together!

We are a fast-growing startup specializing in innovative and zero-emission car sharing solutions. Since August 2019, we have been on the road with our all-electric car-sharing fleet in Vienna and will expand to Munich next year. Other European cities will follow in the future. Together we want to improve the mobility in cities and make them fit for the future.

We Want You!

As an integral part of the ELOOP IT team, you will be responsible for all information technology development-related aspects and coordinate your work with the CTO. With your drive and commitment, you support the growth of ELOOP and bring a lot of passion and joy with you.

Our stack

NodeJS, Express

ReactJS

Postgres, Firebase, Mongoddb

AWS, Digital Ocean, Kubernetes, Docker, Github, Microservices

What you will do

- Ensure scalability, reliability, operability, and the security of applications and data
- You will implement high-quality and readable code
- You will build scalable, robust and performant microservices
- You will automate everything that can be automated
- You want to scrape every Metadata that can help us improve our product
- Not afraid to dig into an RFC; low-level internals excite you, rather than scares you away
- Collaborate with the product team to design and implement new features

What you should bring

- Have an entrepreneurial mindset and look forward to having an impact in a startup
- Strong communicator, ideally experienced in Scrum / Agile and is willing to be part of a cross-functional team
- Take ownership of features: designing, building, testing, and operating software in an agile and lean environment, supported by a team of experts
- Understanding of REST APIs, and hands-on experience with application deployments
- Integration experience with AWS or Google Cloud or Digital Ocean with Kubernetes
- Good English language skills, German is a plus
- PLUS: Any DevOps experience or interest to learn in that direction
- PLUS: Experience in Blockchain and IOT

We offer you

- Remote Working (We have a crossfunctional Team speaking English)
- Diverse set of activities at one of the leading e-car sharing providers in Austria
- Long-term perspective and development opportunities in a growing start-up company
- Flat hierarchies and a heterogeneous, welcoming team
- Central office in Vienna, coffee & tea and team events

Our offer:

From € 42.000 (gross annually)

Discounted use of our ELOOP cars

MacBook as a work device

We look forward to receiving your application, portfolio, CV and photo at
